

" Idalina F. Oliveira contacted our organization to report her experiences. We can classify them as **"Marian Apparitions"**. However her major preoccupation and sense of citizenship are the messages that she has been receiving and which she says she must transmit. Noteworthy that she has accepted fulfilling what was requested from her, however she has encountered many obstacles to spread the message. Preoccupied with the scarcity of time to do such and the urgency of spreading "The Message", she stated, "I am nothing, but I believe that you can pass around the message and images of the events that are being shown to me daily. These images are shown to her at any time either day or night and can happen in the near future. Portuguese version [Mudanças para a nova era](#)

The contact for Idalina, residing near Aboboda in Cascais city, 20 Km west of the city of Lisbon, Portugal was received by our managing director and colleague, Mr. Trindade, which in turn called me to interview " a special lady" according to him, he also advised me that "you will get spine chills".

The "Mother"

Idalina has been receiving the visit of several entities but lately it has been regular the visit of a female entity who she calls affectionately of "Mother" and according to the words of the same "Mother" she is known as mother of Jesus, Virgin Mary, Iemanjá, Maitreya, Kuan Yin and other names as well".

To Idalina, the lady we were interviewing, the entity that appeared to her during the early hours of the morning in her house, looked like a perfectly normal girl, a young lady with mulatto skin which was uncontrollably sad crying large painful tears which marked her face, her left hand put on her head with a despair and "lose heart" look.

This apparition of the "Mulatto Lady" happened on the 21st of January 2009 at 03:25 min. Idalina, stated that it was not anyone known to her or anything physical, "it was something extraordinary, well advanced spiritually".

In terrestrial terms, the looks of the "Lady" is of someone around 18 – 20 year old, with clothing similar to the current girls dressing, light grayish blue, nothing covering her hair, that is without the traditional "Veil" that is normally seen in "Marian Apparitions"

The mulatto Lady in despair.

She only saw the "Lady" from the waist up. The young mulatto "Lady" hair was tied in the back, she had what appeared to be acne marks on her face like teenagers, her skin color comparable to any person of African – European mix, similar to Cape Verde women without being black nor white but mulatto. It was a very beautiful Lady, appearing to be a normal young lady, Idalina felt that the despair look anguish that emanated from the Lady transmitted the pain of a mother that was unable to do nothing for her children because they could not hear her. It was as if she said – Look around, nobody does anything to alert and protect the people from these Atlantic coast areas (African & South American).

With her body, she illustrated how all are with their backs turned on each other. With her

expression she showed that nobody helps them, nobody informs them, nobody worries, the human being keeps on being egoistic and concentrated on his own self. The Lady asked Idalina to “feel” this truth and to do something to help her fellow brethren. The messages that she has been receiving are each time more dramatically and intense in the urgency of being revealed, that is why Idalina decided to talk to us.

First Visit

Idalina received the first visit message that she can remember when she was 18 years old at which time someone explained to her that the “Marian Apparitions” are entities which can be considered extraterrestrial and through their manifestation come to announce the constant and effective presence of help and protection to human beings. Using the alerts in form of messages and apparitions, they seek to awaken the human being from the somnambulism that has hit them massively. They also announce they are evolved entities of light and love who have returned to Planet Earth to help us, for us to survive as a species as well as saving all of the life on our planet. They seek our help as well.

They always state that they come in peace, for love and sharing. In these messages that are being transmitted to Idalina they always state that there are things that must be done in order for the catastrophe to be attenuated.

Vision of the “Mother” in Malveira da Serra location

The first time Idalina Oliveira saw the Mother was in her former house in the Malveira da Serra region, Portugal. She had just arrived home with her family, at around 13 hours on December 27th 2005, a day of bright sunshine but yet cold. From a moment to another she saw in her living room, coming out of nowhere three entities, which she recognized as being first an Angel, the second the Holy Lady, and the third Jesus. All the entities could only be seen from waist up. The angel spoke for a long time, after which Jesus spoke and again the Angel spoke while the Holy Lady and Jesus faded away in space. At that time, Idalina was so surprised and marveled with everything she saw that her only wish was to share that vision with her family.

She tried to rationalize the phenomenon and seek explanations for that apparent optical illusion in order to understand it when all of a sudden she realized that she was the only one seeing this apparition. She admits that given her enthusiasm and desire to share the Apparition, she was unable to hear the Message told by these messengers.

Later, on January, 22nd 2009, on yet another apparition, Jesus talked to her and explained what made him come to Idalina and repeated the Message which they had tried to pass on before.

How she is contacted

Idalina feels when they want to talk to her, they call her in several ways; with a pain in her body, noises, smells, a whisper, they wake her up using many ways.

In such times she talks a lot with the entities that make themselves present. Very often to make sure that these are no illusions created by her mind or simple coincidences, Idalina uses the

Pendulum (radiesthesis) which she learnt how to use in her own way, including to ensure and rectify that she has understood the "Message" that she is required to transmit. Always using precaution not to betray herself or others.

Start and location of the Mega Tsunami Probable dates: May to September 2009

Here starts the description of several events which can bring to the surface much social unrest and the loss of equilibrium of all Planet Earth, both at social level as well as geological, Political, economical and religious.

The images that are being shown to Idalina and the conversations that she maintains with several entities, specially with "the Mother" make her pass on to us a series of events not pleasant to our actual lifestyle.

Near the city of Cape Town, South Africa, most likely on Friday, 13 of June 2009, at the 33rd parallel South, something will cause the movement of tectonic plates in the Atlantic Ocean, in one of the faults on the Earth's crust and a large magnitude earth quake will ensue, consequently mega waves will be formed.

Idalina feels that the origin of these cataclysms in the South Atlantic would be a consequence of some event that would take place on the South Pole. (Humans may try to use HAARP)

Volcanoes and Hurricanes

Large atmospheric storms such as tornados and hurricanes would be generated that together with the tidal waves would devastate a large part of all African coast, from South Africa to Morocco they will make a path of destruction on the littoral and coastal areas.

Cabo Verde Islands on the path of the Tidal Wave.

The gigantic Atlantic Tidal Wave will lose its strength before getting to Cabo Verde, however a Volcano will erupt most probably on the 14th of June 2009 on the Island of Santa Luzia, Cabo Verde which would make this wave regain strength and as such will move up and devastate the North African Coast.

Santa Luzia uninhabited now is therefore responsible for the increase in the Tidal Wave Power coming from the South given that its Volcano will be active and will spill its Lava in North and Westerly directions.

The Wave splits in two

This Tidal Wave coming from the South with renewed strength splits into two once it reaches the Canary Islands, Spain; One part of the wave will sweep the African coast in northerly direction and the other part of the mega wave will take an Easterly direction towards Madeira Island, Portugal. Funchal, the Capital city of Madeira Island will be strongly hit.

The waves will hit Madeira Is. maybe during the early morning of the 15th of June 2009. These dates are within the time frame period starting in May 2009 until September 2009 as announced by the Mother to Idalina Oliveira as probable dates. Taking into account the huge destructive

force that will arrive to Madeira, Idalina does not know exactly which date the mega wave will start at in Cape Town, however she states that until the present time there is no change regarding the information given by the Mother for the said date. Since the waves will travel at speeds of hundreds of kilometers per hour, it will not be difficult to predict when all this will start.

The first impact zone for the Tidal Wave will be in the area of Santa Cruz city, Madeira Is. (where the only airport is located) which will be touched but not too much and starting from there it will sweep intensely all of the South and South West coast of the Island but it will not be felt in Paul do Mar and Ponta do Pargo towns.

This means that the littoral zone on the North of the Island is safer than the South zone but should nevertheless be avoided because of the strong winds and the probable raise of the water level. The most protected zones would be the Highlands, however one should take into account that the strong winds will also be very dangerous and destructive at times.

In what regards the Island of Porto Santo, Idalina sees that it will not be affected.

One of the safest zones in Madeira would be the Highland in Sao Vicente, the Encumeada, Serra de Agua and others such as Paul da Serra, Pico Ruivo, Pico do Areeiro among others.

Idalina alludes to one phrase uttered by The Mother: "Times will come that Madeira Island will be united with the American Continent" Maybe it is implicit here the rebirth of Atlántida ? It will not be in 2009 but in the future and after much deeper movements of the Earth's crust.

Mediterranean will be hit

In the Gibraltar straight, the South Atlantic wave will lose its strength but the littoral coast of South of Portugal and Spain until Barcelona will be hit. In the north of Italy, near the Italian Tirol, a volcano will erupt and spill its lava mainly into the Adriatic Sea and some into the Mediterranean. The Lava streams will cause enormous waves in these locations and the Italian Coast will be much affected. San Marino will be one of the most affected locals by the Lava spills.

It will be at that time that the Vatican will be "closed". Idalina states that when the Vatican is shown to her it is with a cross inclined to the right. The words spoken by the Mother are "and the Vatican will fall" Idalina does not know if the Vatican will fall because it would be robbed, abandoned or if by water flooding or lava spills.

Malta is already and would be still a powerful energetic barrier together with the Greek Islands which will unite both continents preventing the waves from making huge destruction to the Eastern Mediterranean regions.

The Tidal Wave Inversion towards the Brazilian Coast

After passing Madeira Island, the wave will invert its direction and will move again to the southern Atlantic but this time towards the America's coast. It will start its devastation in the Brazilian coast from Belo Horizonte city latitude in the State of Espirito Santo Brazil. All this part of Brazilian coast will be hit very hard however the city of Sao Paulo will be spared. The sequence of this catastrophic event will end at parallel 28 South in the State of Santa Catarina, Brazil. Uruguay will not be much affected by this cataclysm.

In what regards Central America and the Northern part of the South American continent there is a lack of information that Idalina is unable to see because “Mother “has not yet explained.

Large Disaster in the Pacific

Something will happen in Japan and the Pacific Coast that will generate large waves which will sweep the Pacific Coasts hitting them hard. This also helps understanding one of the Mother statements that in Argentina, “The waves will sweep from Coast to Coast”. With these alterations taking place maybe the Falkland Islands will be connected to Argentina.

North of Europe

The wave that was about to hit hard Peniche Town in Portugal after hitting with not too much strength will flow back to the Sea in the direction of Azores Islands. According to Idalina, Azores Islands are protected by an energetically strong barrier, therefore the waves will turn in the direction of the Atlantic coast of France and England.

Because Ireland has a “Protection of light”, UK will have some protection as well. From La Mancha Channel onwards Idalina does not know yet the destruction that may be caused but there would be an attenuation factor given the light energy strength from Ireland.

Abnormal odors at home

Idalina Oliveira says that many times when she is at home and even when not at home, different smells like for example Old Spice perfume, Roses, Jasmine, Musk etc will fill the air. When we, (Luis and Trindade) were gathering material for this article at her house, at 22:25h, March 6th 2009 we felt a Jasmine smell filling the air. We asked if anyone around was wearing such perfume but all none were using.

Some clairvoyants state that sometimes inside their houses and on the exterior very nice smells are felt, more frequently the Jasmine smell.

Passage of an Era

According to Idalina, this catastrophe is a passage in the vibratory scale of the Earth, notwithstanding being destructive these events have as mission the passing of the energy of Jesus, the Son to the energy of the “Mother”, it is therefore a witness passage. (Passage of evidence)
